EVIDENCE OF PAS ACTIVITIES IN VARSITIES - UMNO YOUTH TOLD

KUALA LUMPUR, June 30 (Bernama) -- The Umno Youth has concrete evidence that PAS is influencing undergraduates with slanders against the party, its undergraduate and training council head Zein Isma Ismail said today.

He said the evidence was posted in the Internet and contained in pamphlets distributed among the undergraduates and the movement would leave to it to the Umno legal panel to take action on the slanders.

The movement regretted the action by several lecturers in abetting the opposition party, he told reporters here.

He said the recent statement by Prime Minister Datuk Seri Dr Mahathir Mohamad that students of higher learning institutions should refrain from politics and concentrate on their studies was timely as the opposition was willing to sacrifice the future of university students for their self interest.
