Facelift for Bandar Tenggara but road in deplorable state

P. Govindan

BANDAR Tenggara underwent a facelift recently prior to a visit by Prime Minister Datuk Seri Dr Mahathir Mohamad.

Potholes were repaired and bushes were trimmed and cut, among other things.

Sadly, the Kahang road, a few kilometres before the town and up to Kampung Lukut and Nitar 2, is in a deplorable state, and fit only for four-wheel-drive vehicles.

I use this stretch daily and have had to replace the absorbers of my car after a few months only.

I hope the relevant authorities will look into this matter.
