Perdana for a World Cup hole-in-one

EDARAN otomobil Nasional (EON) is helping to build interest in the Malaysian World Cup Golf '99 event by offering a Proton Perdana to any player who achieves a hole-in-one in the tournament. The Proton Perdana World Cup '99 Special Edition was launched by Prime Minister Datuk Seri Dr Mahathir Mohamad at the Kuala Lumpur Golf and Country Club (KLGCC) recently.

The World Cup of Golf is one of the world's most prestigious international team competitions. The 45th edition of the tournament will be held at the Mines Resort City in November.

In addition to the current range of Proton Perdana colours, the World Cup '99 Special Edition will also be offered in a special metallic light green finish. This commemorative series will feature the World Cup Golf emblem mounted on each side of the front fender. It will be priced at RM87,000 each on-the-road.
