PM unfazed by move

KUALA LUMPUR, Mon. - Prime Minister Datuk Seri Dr Mahathir Mohamad said today he was not concerned about Morgan Stanley Capital International's decision to delay reinstating Malaysia into its index.

Asked if he was concerned about the resultant fall in the Kuala Lumpur Stock Exchange, he said he was not.

"They make one announcement and push up the market, they make another announcement and the market moves down," he added.

"I think the main thing that people should look for is the actual profitability of the company (which they invest in)," he told reporters after a visit to Mimos Bhd today.
