Rally behind PM to rehabilitate economy

Phang Theam Hock

I AM not a politician nor am I politically inclined, but I admire Prime Minister Datuk Seri Dr Mahathir Mohamad because he is a man of vision and guts, qualities seldom seen in politicians and leaders.

He is outspoken, daring and stands up for his country's rights, pride and dignity, and does not cower in fear as most people would. He knows what is good and beneficial for his country, and despite the accusations of arrogance and dictatorship thrown at him, takes everything in his stride and goes all out to prove his critics wrong.

It is very difficult to please everybody all the time, but if you can please some people at some time, it is an achievement. Look around you, and you will find the tremendous changes he has brought about in our country.

Despite the economic downturn, he is not perturbed and is doing his best to restore growth. He handled the recent disturbances very well and put Malaysia back on a secure footing.

In this time of difficulty, citizens should rally behind Dr Mahathir in his efforts to rehabilitate the economy.
