Additional 'boost' for Father's Day contest

COMPOSERS of the best Father's Day messages in the New Straits Times Classifieds contest will be winners in more ways than one when they walk away with award-winning Proviton provitamin capsules.

The ginseng-based energy booster, is among a package of health supplements supplied by Upha Corporation, especially with today's active fathers in mind.

Winners will receive products such as Sweetz artificial sweeteners, fat busting Chitosan capsules and Champs multivitamins.

Senior brand manager Prudence Wong said the company was glad to pay tribute to fathers to acknowledge them for their tireless contributions towards the family.

To show its commitment towards a healthy society, Upha has contributed close to RM4,000 worth of products for contest winners.

At the company headquarters, Wong handed over the products to New Straits Times Press advertisement executive Ahmad Hisham Norhashim. A winner itself, Proviton was presented the Industry Excellence Award 1999 by Prime Minister Datuk Seri Dr Mahathir Mohamad earlier this year.
