Cosmopoint carves niche in IT education

Seelen Sakran

COSMOPOINT Institute of Information Technology has certainly made a name for itself in the provision of IT education.

It recorded a 70 per cent growth in student population from 4,000 in 1997 to 7,000 last year.

Established in 1991 as an IT education centre, it has five divisions - Academic, Multimedia Development, Corporate Training, Software Applications Development and Manpower Consultation.

Its courses lead to a diploma or higher diploma.

Its campuses are equipped with high technology equipment and facilities.

The college also offers external diploma programmes in IT, Multimedia Design & Production Technology and in Advertising & Graphic Design in collaboration with renowned foreign universities - University of New England (UNE) in Australia and Humber College in Canada.

The college plans to open more campuses throughout the country within the next year to meet demand.

The Multimedia Development Division, with its highly talented team has developed homepages and multimedia presentations for some of Malaysia's top corporations.

The skilled and knowledgeable team has also developed award-winning CD-ROM titles such as Windows To Malaysia, which won the Pikom Best CD-ROM Title of the Year 1997 and its Mahathir-CEO Malaysia Inc was nominated as finalist of the 1998 Best CD-ROM Title of the Year.

Its IT Training Division provides training for more than 200 corporate clients on intensive skills enhancement - from users to programmers to network engineers.

The training module is designed together with the clients to meet their specific needs.

With its corporate mission, "To provide IT and Multimedia training, services and solutions of international standards", Cosmopoint is progressing towards becoming an IT giant.

For more information, call 03-2948600 or visit its website at www.cosmopoint.com.my.
