`Review policy on foreign workers'

MALACCA, Sun. - The Government has been asked to review its policy on foreign workers in view of the many social problems which have cropped up following their presence.

Malaysian Trade Union Congress president Senator Datuk Zainal Rampak said some of them had also been detected as disease carriers.

"The MTUC wants to remind the Government of the need (to carry out a review) so that nasty incidents such as fights involving foreigners and our people, for instance, can be avoided."

Last week, Prime Minister Datuk Seri Dr Mahathir Mohamad had said the Government would continue to allow workers from Bangladesh to be employed here.
