Umno-Internet

UMNO SPECIAL ASSEMBLY WILL BE CYBERCAST LIVE

KUALA LUMPUR, Nov 17 (Bernama) -- The Umno Special Assembly tomorrow will be cybercast live over Umno-Online.

Members of the public can follow the proceedings, including the speech of Umno president Datuk Seri Dr Mahathir Mohamad, by visiting the web site <http://www.umno-online.com> from 8.30am onwards.

The Umno-Online, developed in collaboration with Interactives Channel Sdn Bhd, will also be officially launched tomorrow at the Putra World Trade Centre (PWTC), here.

Umno-Online, the official web site of Umno, provides current news on the party as well as political developments in the country.

Umno Information Chief Datuk Mustapha Mohamed said in a statement issued here today that Umno-Online portal would provide contents such as party's constitution, exclusive news and features and links to other pro-Umno sites as well as streaming video and audio.

During its recent trial run for two weeks, Umno-Online had received good response from Internet users, he said.

Mustapha also said Umno-Online would counter various accusations made by the opposition with facts and figures.
