

# Dr M brought benefits to people, says Abdul Hadi

TASIK KENYIR, Tues. — Pas today acknowledged it had benefited from the changes brought about by Datuk Seri Dr Mahathir Mohamad during his 20 years as Prime Minister. Pas deputy president Abdul Hadi Awang said the party had the opportunity to take part in the democratic process as well as the Government's focus on information technology. "We cannot deny the benefits. There have been a lot of progress that benefited the people," he told reporters after visiting Syarikat Air Terengganu Sdn Bhd's projects in Tasik Kenyir. However, Abdul Hadi said while democracy was still practised and independence achieved over the past 40 years, there was still "instability" in many areas when commenting on the performance of Dr Mahathir during his 20 years as the Prime Minister.
