## over oral sex report

SUBANG: Prime Minister Datuk Seri Dr Mahathir Mohamad yesterday expressed shock over a report that four Year Two pupils were caught indulging in oral sex in the classroom last week.

"This is moral deterioration. We have moral and religious classes in school but it seems to me that they are not effective.

"I don't know what is being taught in religious classes nowadays to make our students totally without morals," he said yesterday.

Dr Mahathir said if students were given the right religious guidance and if teachers entrusted with the task of instilling in them the right Islamic values did their job well, such a disgusting act would not have happened.
