Globally-recognised education at Cosmopoint

Seelen Sakran

COSMOPOINT Institute of Information Technology is now offering internationally recognized education in IT, Multimedia Application and Computer Graphic Design in collaboration with University of New England, Australia and Humber College, Canada.

These courses are designed to equip students with the knowledge, understanding and skills required for success in employment or progression to an undergraduate degree.

The qualifications have been developed to meet the needs of students wishing to study IT, Graphic Design, and Multimedia with emphasis on design or technology.

The courses are designed along the Edexcel Foundation, United Kingdom's latest curriculum guidelines to introduce state-of-the-art IT tools, and contemporary subjects like JAVA, C++, Authoring Tools, Visual Basic and Multimedia.

This intensive two-year programme is fully accredited and approved by the National Accreditation Board (LAN). The programmes are offered on both full-time and part-time basis.

The college is well-equipped with excellent IT facilities, well stocked library, spacious lecture rooms and dedicated experienced lecturers to conduct these programmes according to international academic standards.

Since its establishment in 1991, it has diversified itself in software development, IT consultation, corporate training and education with over 8,000 students in eight-centers nationwide.

Cosmopoint's Multimedia Division is reputed as one of the best in the industry, having producing two award-winning CD-ROM titles namely "Windows to Malaysia" and "Mahathir: CEO Malaysia Inc."
