Instil diligence in staff, department heads told

SEREMBAN, Tues. - It is the duty of heads of department to instil in their staff the spirit of diligence and farsightedness as personified by Prime Minister Datuk Seri Dr Mahathir Mohamad.

Menteri Besar Tan Sri Mohamad Isa Abdul Samad said civil servants should be made aware that it was this very spirit that had transformed Malaysia into a nation recognised by the world, within a short time.

Speaking at a dinner in honour of transferred and retired State department head and senior officers, Isa said: "This is important as the country's progress is attributable directly to the contribution of the civil sector.

"This contribution although not seen publicly, has an immense impact on the actual development of the country."
