Opposition's utterances posted on website

EVIDENCE ... When Prime Minister Datuk Seri Dr Mahathir Mohamad said recently opposition leaders were making speeches that Umno must cross over their (the opposition members') dead bodies before any harm could be done to the Chinese, some believed this was a hollow political statement.

But it has since been proven that the Opposition did indeed utter those words. These quotations on a website are believed to have been posted by people behind the Free Anwar Campaign. Those visiting the website now may not find these items as they have since been taken out. These utterances were found in the website in early February.

Speaking to reporters after attending an Aidiladha feast at Kampung Bendang Raja near Pendang on March 6, Dr Mahathir related how a Pas leader had made a statement which hurt the feelings of the Malays just to gain political mileage.

He said the leader had said that if Umno members wanted to "kill" the Chinese, they would have to face the Opposition first.

"He said Umno members would have to confront the Opposition first before they could touch the Chinese."
