Unity should be on the mind of all leaders

S.R.

ON Dec 25, Prime Minister Datuk Seri Dr Mahathir Mohamad mooted the idea of Malay unity discussions, with Umno willing to initiate discussions with Pas and Parti Keadilan Nasional.

This is a very noble and positive move by Umno to come forward to invite the Opposition party leaders for discussions for the sake of Malay unity.

In the same context, the Chinese and Indian leaders should also hold discussions among themselves to forget their individual differences and get together under a common umbrella for the continuous success of the nation.

MCA and MIC should not only approach the Chinese and Indians in the Opposition, but also leaders in component parties of Chinese and Indians under the ruling coalition must also forget their individual differences and be united for the sake of the country.

Leaders play an important role for the success of the nation. The ordinary man follows what the leaders say. All party leaders must put unity as the most important item on their agenda and start working towards it.
