Dr M to attend wetlands event

DENGKIL, Sat. - Paya Indah Wetlands houses breathtaking natural beauty.

Located some 45 minutes from the capital city, it is surrounded by flora and fauna. Tomorrow, Malaysia's premier tourism park will be celebrating its first anniversary.

The event will be attended by Prime Minister Datuk Seri Dr Mahathir Mohamad. He will witness the release of a pair of Manchurian red-crowned cranes, a protected species donated by China in June in exchange for a pair of tapir.

In conjunction with the anniversary, Paya Indah Wetlands organised a three-day carnival, which ends tomorrow.
