WITH Ahmad Al-Fara

I READ the Arabic version of Datuk Seri Dr Mahathir Mohamad's book A New Deal For Asia and I found it very informative. He talks about the recent economic crisis faced by the region, especially Malaysia.

The Prime Minister's insights are an eye-opener. He tells us about the foreign conspiracy against Malaysia, and even offers solutions to avoid such incidents in the future.

The Prime Minister is a respected statesman and spokesperson for much of Asia. I believe that his account is factual and fair.
