MIC to study new constituencies

KUALA LUMPUR, Fri. - MIC will study all proposed new constituencies under the electoral redelineation exercise before deciding on the percentage of new seats it wants to contest in the next general election.

Party president Datuk Seri S. Samy Vellu said that the study would look into the racial composition of each seat.

The party would discuss the study findings with Prime Minister and Barisan Nasional chairman Datuk Seri Dr Mahathir Mohamad.

Samy Vellu who is also Works Minister was speaking to the Press after chairing the party's central working committee meeting.

The CWC today also directed all divisional chairmen to re-organise their respective election machinery to ensure new polling districts in their areas were taken care of.

Samy Vellu said all 580,000 MIC members who have not registered as voters have been directed to do so quickly.

Divisional chairmen must ensure that all their members were registered.
