Next smart dialogue in Swaziland

THE next International Smart Partnership Dialogue will be held in Swaziland in September next year.

"We will meet again in Swaziland. King Mswati III has consented to be the host," Prime Minister Datuk Seri Dr Mahathir Mohamad said.

"I'm looking forward to it as I have never been to Swaziland. I think there will be good attendance and we will have another session of fruitful discussions with Heads of State and Government, and other members of Government, parliament, private sector and youth."
