KL FOLKS SHOULD TAKE GOOD CARE OF THEIR SURROUNDINGS

KUALA LUMPUR, Feb 4 (Bernama) -- Kuala Lumpur city folks should take good care of their surroundings, especially recreational and public areas, said Datuk Seri Dr Mahathir Mohamad today.

"We hope they will take good care of these parks because they cost a lot of money to set up," he said in a tea reception and cultural presentation in conjunction with 29th Kuala Lumpur Federal Territory Day at Taman Tasik Titiwangsa, here.

The Prime Minister also said what would be the use of having beautiful buildings if they were not properly taken care of, turning them into slums.

"We must accept the fact that we have to bear certain cost to live in the city, to finance all this for us to lead a comfortable life," he said.

Dr Mahthir hoped that KL folks would continue to preserve and enjoy the environment, failing which they would suffer.

Present at the function were Minister in the Prime Minister's Department Datuk Tengku Adnan Tengku Mansor, Kuala Lumpur Datuk Bandar Datuk Mohmad Shaid Mohd Taufek, foreign diplomats and leaders of political parties.
