Cosmopoint-MOA

COSMOPPOINT TO PROVIDE FIVE COURSES TO INDONESIA'S YMPBS

KUALA LUMPUR, July 10 (Bernama) -- Cosmopoint College of Technology (Cosmopoint) will provide five of its pre-university or matriculation programmes to Yayasan Masjid Panglima Besar Soedirman (YMPBS) in Indonesia under a Memorandum of Agreement (MOA) signed today.

The programmes are Diploma in Information Technology, Diploma in Multimedia, Diploma in Computer Graphic Design, Diploma in e-Secretaryship and Diploma in e-Business.

"Under the programmes, Indonesian students will do one year of the diploma in Indonesia and the final year in Kuala Lumpur," said Cosmopoint President Datuk Idrus Mohd Satha in a statement here today.

YMPBS would implement the courses and training programmes sourced from Cosmopoint and their lecturers also would be trained at Cosmopoint, said Idrus.

He said it was the former Prime Minister, Tun Dr Mahathir Mohamad's vision to see Malaysia 'prospering thy neighbour'.

"Apart from looking at the venture as purely a business deal, we are also duty bound to help our neighbours progress," Idrus said.

YMPBS was represented by its 88-year old Chairman, Lieut Gen (R) Soerjo Wirjohadipoetro.

YMPBS, a Muslim foundation established in 1966, is located in Bakasi, Indonesia. It provides courses ranging from kindergarten programmes to Masters to over 10,000 students.
