DEVELOP LEADERSHIP STYLE, STUDENTS URGED

BANGI, July 1 (Bernama) -- Getting people to do what they do not like, but they actually end up liking it.

That, in a nutshell, is what leadership is all about, and it is something that Higher Education Minister Datuk Dr Shafie Salleh wants students to develop and internalise.

"Choosing a leadership style is not easy, you have to consider such variables as the followers, issues, time, conditions and objectives," he said when officiating a series of premier speeches of the Institute for Tun Dr Mahathir's Thoughts at the Employee Provident Fund Social Security Training Institute (ESSET), here.

The text of his speech was read out by the ministry's parliamentary secretary Datuk Dr Adham Baba.

Dr Shafiee said the former prime minister's deep commitment and self-confidence had made him an outstanding leader, and an ideal role model for student leaders.

A former deputy prime minister, Tan Sri Musa Hitam would present his speech entitled "20 Years with Mahathir" in the series.
