Ansara exceeds target in collecting over RM1.13m for its education fund

KUALA LUMPUR, Tues. - Ansara, the association of former Maktab Rendah Sains Mara students, managed to collect RM1,130,799.75 for its Harapan Ihsan Pelajar education fund, exceeding its target of RM1 million.

Its president Datuk Mukhriz Mahathir said in a statement that the money collected through the donation drive from Feb 1 to March 15 would be used to assist underprivileged children in primary and secondary schools with their studies.

"We will expand our Mutiara Pertiwi free tuition programme and build five new centres. We will also conduct free career guidance and motivational talks nationwide and create an emergency financial assistance centre to help those who need money for their school fees or any expenses related to their studies," he said.

Mukhriz thanked all donors and hoped that they would continue their support in the future.

He said although the drive was over, the public could volunteer their services for the tuition centres or contribute equipment. For further information call 03-64118006 or visit its website at www.nationaltelethn4edu.com.
