EXPORT EXCELLENCE AWARD - SERVICES

AIROD SDN BHD

Cultivating value-added maintenance as a corporate mission with an all-encompassing maintenance culture, AIROD is geared to reach greater heights in offering customised aerospace services. Occupying a 77.4-acre site at Sultan Abdul Aziz Airport, AIROD dwells in depot level maintenance, repair and overhaul (MRO) services for military and commercial aircrafts.

Established in 1976, AIROD with its six aircraft hangers constructs from a fully equipped engine and component workshop with specialized repair capabilities and engine test cells. AIROD is moving fast with developments as the government eyes the aerospace sector as a key industry in the country's industrial master plan.

MULTIMEDIA UNIVERSITY

Situated in Cyberjaya and Malacca with emphasis that differs in certain areas within the broad sphere of multimedia, MMU was officially launched in July 1999 by former Prime Minister Datuk Dr Mahathir. As of June 2004, MMU recorded a peak total of 19,291 undergraduate and postgraduate students from over 46 countries such as Iran, Ghana, Japan, United States, South Africa, China, Yemen, Saudi Arabia, India and Pakistan.

With more than 100 approved programs from Diploma to Doctorate levels, MMU are generating research outputs in international quality journals and patents. MMU applies an open academic system, where students pursuing their undergraduate degrees, can complete their programs at their own pace.
