A man prompted by pure love for his motherland

A. Mangalam

DATUK Seri Dr Mahathir Mohamad is a person who is prompted by pure love and concern for his motherland and her people. He is a visionary who sees the world as a whole and all people as his kith and kin.

I was told by the late Mr Sentheratnam, a member of the Pure Life Society who had lived in Alor Star, that Dr Mahathir as a young doctor had a soft spot for patients who were poor and old. He did not charge them. He even used to send them home in his own car if the patient lived in a remote village.
