More stalls at colourful bazaar this year

THE second level of Putra World Trade Centre has become a hive of activity ahead of the 54th Umno general assembly, with over 450 stalls set up as part of the bazaar.

Party president Datuk Seri Dr Mahathir Mohamad launched the bazaar yesterday and spent an hour visiting the stalls, which were selling an array of textile, clothings, foodstuff, shoes, jewellery, souvenirs and handicraft.

This year, the number of stalls has almost doubled.

The stalls have been upgraded with the use of booths replacing the usual tables and the inclusion of a wireless broadband connection that enables stall owners to hook up to the Internet.

Even the walkway has been carpeted, making the visitor's trip to the stalls a more pleasing affair.
