Dr M one step ahead

E.H. Ooi

IT is said that the Oriental knows that he has to be one step ahead of the Occidental in order to understand the complexity of the latter's mind.

Datuk Seri Dr Mahathir Mohamad is one who has got this gift and that is why some Western leaders who had hidden agendas up their sleeves were never at ease with him because he could see the other side of them clearly.

It is this Mahathir acumen and his oratorical skill that have won him the respect of world leaders.
