Dr Mahathir can still be of service to country

Noorsham Yusof

MANY people in this country doubted that Dr Mahathir would really retire today. He made the right decision as Dr Mahathir will still be around if the nation needs his services.

I married in the same year Dr Mahathir became Prime Minister in 1981. Being a father of 12 lovely children, my friends from Japan and UK may find it incomprehensible that I can bring up such a big family.

But in Malaysia, I say, you can and this, I believe, is what Dr Mahathir and all the previous leaders had striven to achieve for all of us.
