Dr M, you'll be missed

Mohd Noordin

DATUK Seri Dr Mahathir Mohamad remains among the few of my most admired personalities. You have carved a niche for yourself in Malaysian politics and are going to be missed very much by Malaysians from all walks of life.

At the international level your absence will also be felt strongly. The speeches you have made at several world forums will serve as a wake-up call, especially for countries which are oppressed, to stand up for their rights.

At the United Nations your voice will reverberate within the four walls of the General Assembly until the reforms you have expounded time and again are finally accepted and implemented.

Sir, I salute you for the courage and outstanding leadership you have displayed.

May you live long to enjoy the fruits of your labour and see the changes you wish to bring about both at home and abroad.

MOHD NOORDIN

Malacca
