Puteri's booklet for young job seekers launched

UMNO president Datuk Seri Dr Mahathir Mohamad yesterday launched a booklet Langkah Pertama Membina Kerjaya (The First Step in Building a Career) after briefing divisional leaders in the run-up to the party's general assembly.

Published by the Puteri Umno human resources bureau, the booklet offers tips and brief instructions to young job-seekers, especially women, about to enter the job market.

The 34-page booklet will be distributed to Puteri members and school-leavers as part of the wing's membership drive.

Among others, the booklet gives tips on preparations before attending interviews and what employers usually look out for in prospective employees. Also present at the launch was Puteri chief Azalina Othman Said.
