Heed Dr M's call

M.Y.

TUN Dr Mahathir Mohamad has earlier reiterated that senior political leaders should pave the way for the next in line, yet, there are a few stubborn and selfish leaders who have passed their prime, lingering on in their posts.

It's better to leave and pave the way for the next in line, who have patiently and dedicatedly been the number 2.

Dr Mahathir's call to other senior leaders has perhaps fallen on deaf ears. These leaders either hope for a continuity with Datuk Seri Abdullah Ahmad Badawi or are trying to woo the new Premier to retain them.

Imagine the second in line waiting endlessly for the rightful promotion, only to be taken for a ride. All political party leaders must understand this human psychology and make way for others.

There lies the pride and privilege of a great leader. He leaves with grace and respect. Don't wait till one is sacked or dies in office.
