Jewish lobby is biased

Datuk Seri Yuen Yuet Leng

THE almost instantaneous response to Dr Mahathir's OIC speech from the American Senate merely confirms the preponderance of Jewish-American opinion and their leverage in American politics, economy and society.

Registration of displeasure to Dr Mahathir's speech in an inadequately informed content situation is understandable. However, the strong Jewish bias with an accompanying suspension of military training aid to Malaysia significantly adds credence to the weight and influence of America's Jewish lobby.
