Logic of `BusinessWeek' belies reason

Datuk Dr S. Vijayaratnam

THE logic of the American magazine, BusinessWeek, belies reason. If Datuk Seri Dr Mahathir Mohamad, or anyone for that matter, does not wish to grant an interview for whatever reason, it is inappropriate to threaten to write nasty things about that person and his country.

Are they some kind of titans before whom one must tremble and quake?

If Dr Mahathir did entertain their request, the chances of their misinterpreting and twisting what he says are high. If he refuses, they have already stated their intentions. It's a Catch-22 situation. The workings of the Western Press often baffle.
