Name KLIA after Dr Mahathir

Dr M.S.S.

I AGREE with Dr Mohd Safar Hasim who suggested naming a public university after Datuk Seri Dr Mahathir Mohamad (NST, July 1). Dr Mahathir is one of the most farsighted luminaries Malaysia has produced and his vision has been responsible for our transformation.

Many of his pet projects have been successful, namely the national car project, the Multimedia Super Corridor, Putrajaya and KLIA, to just name a few. Malaysia is still advancing the way he planned.

To remember him, it would be apt to also name KLIA after him. It is one of the best in the world and also his brainchild. Whoever lands at KLIA, the gateway to Malaysia, certainly thinks of Dr Mahathir and that they are entering a country modernised by him.

Dr M.S.S.
