Set up Eurasian bloc

By Kassim Ahmad

IT is most heartening to see that not only Security Council members, but also most other UN members as well as ordinary people throughout the world have risen to oppose this war. This bodes well for the future of mankind.

Still, verbal condemnation is not enough. We are faced with an extraordinary event: leaders of the so-called democratic world have behaved most shamefully and dangerously.

Fear of taking concrete action against them, just because popular prejudice calls one of the aggressors "the world's sole superpower", is extremely dangerous.

This is a good time for Prime Minister Datuk Seri Dr Mahathir Mohamad, who is also the current chairman of the Non-Aligned Movement, to forge a new bloc, a Eurasian bloc, to balance the "sole superpower" and pave the way for genuine peace.
