Prime Minister a strategist par excellence

Datuk Zulkifli Abdul Rahman

NEVER had one man in Malaysia contributed so much to so many within two decades of leadership, weathering the storm, controversies and, not least, confronting vindictiveness in the process.

Datuk Seri Dr Mahathir Mohamad had to be firm, decisive and would not accept mediocrity. He has that rare quality of being able to see clearly opportunities that were not visible to others and the ability to have them developed much to the apprehension and doubts of those around him. He proved the pundits wrong.

Often his vision and views were initially difficult to comprehend and there were technocrats who feared to seek clarifications lest they exposed their ignorance.

In the process those who had to be dropped cast aspersions on him. He is humane. He appears hard outside but in reality he is full of compassion, understanding and always gives his ears to those who serve him. He is also a strategist par excellence.

DATUK ZULKIFLI ABDUL RAHMAN
