Teachers must be alert

Bonny Sequerah

I REFER to your headline "PM: Punish troublemakers" (NST, Aug 24). I agree with Datuk Seri Dr Mahathir Mohamad that those who are not interested in studying should be kept away from school.

Blame should also be passed on to some headmasters and teachers who do not bother to find out what is going on in their school, e.g., before school begins in the morning and during the recess. It is at these times that the bullies are most active because they know the teachers are relaxing in the teachers' room.
