## The PM's Antarctica adventure

Tan Yin Yin

DATUK Seri Dr Mahathir Mohamad had an unusual getaway - a one-month journey to Antarctica.

With camera in hand, the Prime Minister, accompanied by his family and colleagues, captured his first adventure to the last continent.

The entourage travelled on board the polar-class ice-breaker Kapitan Dranitsyn manned by an all-Russian crew.

In conjunction with National Day, Discovery Travel & Adventure Channel presents Postcards From A Prime Minister on Sunday at 1pm.

Viewers get to share this expedition with Dr Mahathir as he personally narrates his exciting holiday to the ends of earth - from stormy seas, outstanding Antarctica landscapes to the calm, restful days spent among penguins, icebergs and snow.

The programme brings to life the emotions of this once-in-a-lifetime journey. It also reveals a more intimate side of Dr Mahathir rarely seen on television.

Viewers are also able to witness the surprise, delight and amazement of the Prime Minister and his travelling companions as they explore Antarctica.

Postcards From A Prime Minister is directed, co-written and co-produced by Azlina Ahmad, features editor at Astro, while Vikram Channa is executive producer for Discovery Travel & Adventure Channel.
