DIAGRAM KE-1114 PERANGKAAAN MELAYU
MELI BULAN MEL, 1972

**ULASAN KA-ATAS PERANGKAAAN KELAPA SAWIT
BAGI BULAN MEI, 1972**

Pengeluaran minyak kelapa sawit bagi bulan Mei 1972 ada-lah 46,606 tan yang mana ada-lah kejatohan sa-banyak 1,700 tan daripada keluaran bulan yang terdahulu-nya. Bagaimana pun, dengan keluaran bulan Mei, keluaran timbun-tambah yang di-rekodkan untuk lima bulan pertama tahun ini ada-lah 210,441 tan berbanding dengan 197,299 tan, menunjukkan tambahan berseh kira2 13,000 tan atau 6.6%. Pengeluaran isi kelapa sawit bagi bulan Mei 1972 ada-lah 8,764 tan yang mana lebeh rendah daripada keluaran bulan April 1972.

Banyak-nya eksport minyak kelapa sawit bagi bulan Mei 1972 ada-lah tinggi sedikit daripada bulan April 1972 ia-itu dari 46,530 tan dalam bulan April kepada 48,364 tan dalam bulan Mei. Jumlah eksport2 bagi tempoh bulan Januari - Mei ada-lah 233,823 tan, berbanding dengan 197,522 tan pada tempoh yang sama dalam tahun 1971. Ini ada-lah tambahan sa-banyak 18.3%. Impot minyak kelapa sawit pada bulan Mei 1972 ada-lah tidak nyata.

Tidak terdapat eksport isi kelapa sawit pada bulan Mei 1972 dan jumlah timbun-tambah bagi lima bulan pertama tahun 1972 menunjukkan kejatohan yang menakjubkan dari 10,170 tan pada tempoh yang sama tahun 1971 kepada hanya sa-banyak 661 tan sahaja dalam tahun 1972. Dari jadual pertama akan dapat di-lihat chorak perubahan bagi kegunaan keluaran ini. Sementara dalam tahun2 yang lepas, kebanyakan daripada-nya telah di-eksportkan tetapi sekarang kebanyakan isi kelapa sawit yang di-keluarkan telah di-gunakan untuk penggunaan tempatan. Sa-benar-nya, angka untuk penggunaan tempatan ada-lah lebeh tinggi daripada keluaran untuk beberapa bulan yang lepas dan impot bagi keluaran ini menyebabkan kekurangan ini.

Dari jumlah eksport minyak kelapa sawit sa-banyak 233,823 tan bagi 5 bulan pertama, sa-banyak 157,320 tan telah di-eksportkan terus daripada pelabohan2 Malaysia sementara yang lain itu (76,503 tan) telah di-eksportkan ka-Singapura dan melalui-nya.

Bagi kali yang pertama, impot2 dan eksport2 minyak isi kelapa sawit telah di-sertakan di-dalam Terbitkan (Release). Banyak-nya eksport bagi keluaran ini telah menunjukkan tambahan yang nyata dalam beberapa bulan yang lepas. Bagi tempoh bulan Januari - Mei 1972 sahaja, eksport ada-lah 16,890 tan berbanding dengan 375 tan sahaja bagi tempoh yang sama dalam tahun 1971.

Harga2 isi kelapa sawit yang akan di-terbitkan dalam Terbitan telah di-batalkan kerana eksport2 keluaran ini sekarang tidak nyata.

Pengeluaran minyak kelapa sawit bagi Malaysia Timor juga menunjukkan tambahan yang besar saperti yang dapat di-lihat dari angka2 eksport di-jadual akhir terbitan itu. Banyak-nya eksport minyak kelapa sawit bagi 5 bulan pertama tahun 1972 ada-lah 33,080 tan. Ini ada-lah 261% lebeh tinggi daripada eksport sa-banyak 12,668 tan itu pada tempoh yang sama tahun 1971.

COMMENTS ON THE OIL PALM STATISTICS
FOR MAY, 1972

The palm oil production for May 1972 was 46,606 tons which was a decline of 1,700 tons from the previous month's output. However, with the May production the cumulative output recorded for the first five months of this year was 210,441 tons as against 197,299 tons, netting an increase of about 13,000 tons or 6.6%. The kernel production for May 1972 was 8,764 tons which was also lower than the April 1972 output.

The export volume of palm oil for May 1972 was slightly higher than that in April 1972 i.e. from 46,530 tons in April to 48,364 tons in May. The total exports for the January - May period was 233,823 tons as compared to 197,522 tons during the same period in 1971. This was an increase of 18.3%. The May 1972 imports of palm oil was negligible.

There was no exports of palm kernels during May 1972 and the cumulative total for the first five months of 1972 showed a drastic fall from 10,170 tons during the same period in 1971 to only 661 tons in 1972. A look at the first table will reveal the changing pattern of the use of this product. While in the past, most of it was exported, recently, however, most of the palm kernels produced were used for local consumption. In fact, the figure for local consumption was higher than output for the last few months and imports of this product made up for this deficit.

Of the total exports of palm oil of 233,823 tons for the first 5 months, 157,320 tons were exported direct from Malaysian ports while the rest (76,503 tons) were exported to and via Singapore.

For the first time the imports and exports of palm kernel oil has been included in the Release. The export volume of this product has shown a marked increase over the past few months. For the January - May 1972 period alone, the export volume was 16,890 tons as compared to only 375 tons for the same period in 1971.

The palm kernel prices which used to be published in the Release have been removed as the exports of this product is now negligible.

East Malaysia production of palm oil has also shown a substantial increase as can be seen from the export figures on the last table of the Release. The export volume of palm oil for the first 5 months of 1972 was 33,080 tons. This was 261% higher than the export of 12,668 tons during the same period in 1971.
