2. Tun Tan in his address, has given us a brief history of Sime Darby. I note his justifiable sense of pride when he "rubbed in" the fact that the company was actually born in his home State of Melaka 69 years ago. His late father had always been associated with the company, and now, Tun Tan himself, is at its helm as Chairman. Knowing Tun Tan, I don't think that the directors will be encouraged to go on an eight-hour drinking spree. Tun Tan will be carried to bed even after half a bottle of beer.
