MARA HOLDING SDN. BHD.

Business To Lead

MARA HOLDING SDN. BHD. is into *real business*. As an entrusted conglomerate, **MARA HOLDING** is today leading an industrious network of vast subsidiary companies, diversified into major business sectors, from public transportation to property development.

With over 1,100 express buses in operation nationwide, **MARA HOLDING** is the biggest group in public transportation. It has successfully ventured on full commercial scale into the automotive industry, especially engineering and shipbuilding. Also leading another core sector in the diverse manufacturing industry, involving textile, industrial tailoring, batik and leather-related products. And **MARA HOLDING** is progressively expanding in property development, travel and management services. Now, **MARA HOLDING** is an 'International Trading House', setting up chains of stores all over Malaysia.

The name of **MARA HOLDING** is the silent trademark of success, seen in their diverse business, quality products and excellent services, everywhere in Malaysia.

MARA HOLDING...the investment arm to your benefit, with business to lead.

MARA HOLDING

The SGS Group in Malaysia

Your Quality Partner

You may know us as the world's leading inspection company with offices in over 140 countries. Or you may know us as a world class provider of technical and consultancy services. But first and foremost, you should know SGS as "Your Quality Partner".

INSPECTION SERVICES

The traditional role of SGS is providing quantity and quality surveys for commodities, semi-finished products and finished products. Our inspection services also include evaluating conformance to recognized standards, safety regulations and buyer's technical specifications for all types of industrial equipment and consumer products.

LABORATORY SERVICES

SGS offers a network of laboratories in Malaysia with sophisticated equipment to carry out all types of testing. Our services range from specialized sectors such as petroleum, latex products and microbiological testing to physical testing and chemical analysis on a wide variety of products.

TECHNICAL AND CERTIFICATION SERVICES

SGS offers a comprehensive range of technical and certification services. Our technical services include metering and calibration for the petroleum industry and non-destructive testing for major engineering projects and local fabricators. The SGS certification for ISO 9000 Quality Systems and BS 7750 Environmental Management System are internationally recognised for both manufacturing and service industries.

CONSULTANCY SERVICES

A more recent development is our consultancy services. We provide quality assurance consultancies leading to ISO 9000 certification. SGS's environmental services include auditing, monitoring, sampling and testing of all aspects of soil, water and air pollution. And our consultancies extend to safety as well.

We are driven by forces of ideas and knowledge

Property development and investment

Over the years, Malaysian Resources Corporation Berhad (MRCB) has grown with Malaysia. Today, after our transformation from a modest public listed company, we are one of the fastest growing and diversified corporation in Malaysia.

MRCB now manages a portfolio of large, profitable and diversified companies in a range of industries that include property development, property investment, power, media, telecommunications, construction and engineering.

Power

All this hasn't happened by chance. We have established a corporate philosophy of honesty, hard work and efficient management, aimed at the growth and expansion of our many and varied businesses.

MRCB is now professionally managed by Malaysians and its operation is of international standard.

Underneath it all, we are a company driven by forces of ideas and knowledge to meet challenges of the future.
