

APPENDIX

Acknowledgements

The production of the GTP Roadmap 2.0 was made possible through the collective effort, support and commitment of various public and private sector entities, and individuals. The Government of Malaysia would like to express its appreciation to the participating bodies and persons who have helped lay out the blueprint for

the second horizon of the GTP, which will bring the country ever closer to reaching its goal of becoming a high-income nation.

Though it would be practically impossible to acknowledge the many agencies, organisations and entities that have contributed to the production

of this document, the Government nevertheless would like to make a special mention of the following organisations. Their contributions have ensured that the GTP Roadmap 2.0 is as robust and rakyat-centric as possible.
