

What will you do for us in Putrajaya, Pakatan?
Malaysiakini.com
Disember 17, 2010

The Pakatan Rakyat should send a memorandum to the Majlis Raja-Raja through one of their leaders by defining what are ketuanan Melayu and all other issues that are being misrepresented by the BN.

They need to explain in detail what will Pakatan do if they control the federal government.

If they were to administrate, they should assure that the MACC and the auditor general both report to the Parliament.

They should ensure that the salaries of ministers should be determined by Parliament and can be debated in Parliament as well.

That means that the MACC and the auditor general is the supreme body and their appointment is by members of Parliament and is approved by the Agong.

The rakyat wants to know what Pakatan wants to do if they control the federal government.

Do not promise dreams that never come true. Promise something that is practicable and easier to implement.
