Residents in parliamentary and state constituencies controlled by the opposition should be informed of government efforts in developing their area, BN Wanita chief Shahrizat Abdul Jalil said today.

She said that some people in these constituencies were unaware that the BN, and not the opposition, was responsible for the development benefitting them.

"Kepong is one of the opposition areas where BN has brought development, and one day the people will realise this," she told reporters at the 'Ties with the People' carnival organised by the Kepong BN Wanita.

Shahrizat, who is Umno Wanita chief and Minister of Women, Family and Community Development, said there should be more programmes to promote unity among the various races and show the people where the development in their area came from.

Shahrizat also said the Wanita BN machinery nationwide was prepared to face any election, including in Sarawak.

She said there were many people in the machinery and they were ready for any challenge, she said.
