Terengganu Menteri Besar Ahmad Said today gave some pointers on how Selangor Umno could help the Barisan Nasional (BN) recapture Selangor from the opposition, as Terengganu Umno had toppled the PAS-led Terengganu government in 2004.

He said the BN machinery, particularly its women's wing, must ensure that more BN supporters registered as voters because in an election, the voters determined the victor.

“Besides, the divisional chairmen should not find fault with the branch chairmen because this would be to their detriment as the branch leaders were their main supporters,” he said when opening the delegates meeting of the women's wing of the Tanjung Karang Umno division.

He also said that Selangor Umno should enhance understanding with their BN partners such as MCA, MIC and Gerakan.
