

**If Anwar not above the law, why is Ibrahim?**

YOURSAY 'Ibrahim Ali, why are you untouched no matter what rubbish or seditious remarks you utter?'

'The sooner Anwar goes to prison, the better'

Milosevic: Perkasa chief Ibrahim Ali, please explain how Saiful Azlan Bukhari is a victim in this case. He had met powerful friends backing him - then DPM Najib Razak and his appendages - before making the police report.

Najib says Saiful appeared traumatised (after admitting they had indeed met) suggesting Saiful did not like to be sodomised. Yet he visited Anwar a few days later. So how traumatised was he?

Why would anyone doubt the following: 1. There was a conspiracy involving the highest levels of government. 2. Saiful himself was quite happy to be sodomised - he keeps visiting Anwar, and as a strapping young man could have easily rebuffed Anwar.

So if repeated acts of sodomy did take place, the despicable Ibrahim should explain why Saiful was an unwilling partner, and tell us why he shouldn't go to jail too.

Myviews: Ibrahim asked "...as if he (Anwar) is above the law?" Why ask such a silly question?

In this country, no! Anwar is not above the law but it looks like you are above the law and hence the reason why the government does not touch you no matter what rubbish or seditious remarks you spill from your foul mouth.

But, hello, don't be too sure nobody will take action against you. Someone mightier up there is watching and there's no escape.

Anonymous\_1395686384: It defies logic, firstly a 65-year-old man has anal sex with a young well-built gentleman against his will is ludicrous, unless it was consensual or Saiful could easily fight him off.

For those who are not aware, to perform anal sex one has to have an erection close to 100% hard for penetration unlike virginal sex where you could penetrate with a 50% erection. Even with Viagra or Cialis, it is very difficult to have that for an old man with back problems.

Even so, one has to have lubricant for penetration unless Saiful allowed it to be used. When the doctor first examined him in Hospital Pusrawi (Pusat Rawatan Islam), he said there was no penetration.

To makes matters worst, Saiful is the 'anak angkat' of PM's wife Rosmah Mansor's secretary and he had visited the deputy prime minister before the police report. So convenient.

Jangan Main Main: I feel sorry for Ibrahim Ali who has been jumping from party to party and rejected and despite been given a chance to stand for election and yet still the people have rejected him.

The problem with him he can still stay in the limelight by insulting and shaming Anwar Ibrahim. Of course, you have people like Dr Mahathir Mohamad, Daim Zainuddin and Najib supporting him and providing financial assistance to carry out his activities.

As Anwar is a threat to Mahathir, Daim and Najib, they will greatly need his help to damage Anwar as much as possible.

It is shocking to find Ibrahim Ali using Islam to spout venomous hatred against Anwar. I too do not like Anwar, but let us be fair to him and his family. Whatever we say or do must be based on solid facts and evidence.

Onyourtoes: Unless the case is related to us personally, I think it is most uncommon for us to call for someone to be sent to prison "the sooner, the better", more so the appeal process (although done in double quick time) has not been exhausted yet.

It is obviously the call is governed by hatred and fear. I think Anwar is hated for being the spoiler of good life of many. I think Anwar is also feared by many who are likely to go to jail if he ever comes into power.

It was never about Saiful's posterior. The whole world knows this, except hypocrites and the nincompoops.

Mushiro: Going by statistics, 52% support Anwar. That too in a fraud, unfair, media biased and heavily skewed election.

So if Ibrahim cannot understand Anwar's supporters and sympathizers as to why they believe in Anwar, it only shows that Ibrahim has very weak intellect like most Umno people to comprehend this logic.

Mahathir too pretends not to understand why more and more people rally behind Anwar, but he failed to convince the 52% in spite of all the available MSMs (mainstream media) at his disposal.

The rakyat see Anwar as their hope against the corrupted and barbaric government as portrayed through the faces of Najib, Muhyiddin Yassin, Rosmah, Ahmad Zahid Hamidi,

Mahathir, Ibrahim Ali and the gangsters.

Fairnsquare: Ibrahim Ali, you have no influence over most in the country, so your illiterate views of no calibre are of no use to anyone. Perhaps the feeble minded who can be easily manipulated, but they are a minority.

There was tampering in the evidence package in the case, and as such the case must be thrown out, irrespective of his guilt, which cannot be proven since the tampering.

As the saying goes, it is better to free 10 guilty persons than to convict one innocent. That is the system and judges who work within that system must abide by it. For that reason alone Anwar must be freed.

Ipohcrite: If put to a vote, there would be an overwhelming majority of Malaysians that would like to see Ibrahim Ali behind bars for all his racist and divisive actions that threaten the harmony of Malaysians.

The only people who share his views are the hardcore Umno types and their cronies who feel threatened by Anwar because of their conniving ways.

Cogito Ergo Sum: As a man thinketh, so is he, says the proverb. And as you have shown in the past, you are an unrepentant, uncouth bigot who should be the one in jail.

Your seditious words have long irked right thinking and sane people. If it was (perish the thought) a non-Muslim bigot like you, he would been long gone from now. That you are still around reflects the tolerance and forbearing your victims have.

They are so much better than you are or ever will be. It also reflects that they who do not take action against you, are worse or equal in bigotry to you.

Anonymous\$&@?: The rainy season is here, and the 'katak' (frog) is making noise again.
