In order to become a successful nation and a developed country, all Malaysians need to be together supporting the government and the leadership of prime minister Najib Abdul Razak.

Federal Territories Minister Tengku Adnan Tengku Mansor said the government had a planned vision and the vision could only be achieved if Malaysians were together with the government.

"I know a lot of you (public) complained about the government but it is not easy to manage the country with a lot of diversity.

"Please give us a chance especially with the present prime minister, we would like to make a lot of changes and move forward", he said in his speech during the official unveiling ceremony of Bukit Jalil City Project at Bukit Jalil in Kuala Lumpur today.

Tengku Adnan said Malaysia was built on unity and one of the countries with a plural society and multi religions, thus he urged everyone to come forward and help the government in moving towards a successful nation by 2020.

He pointed out there was no perfect government in this world, however, the government was always looking forward to help develop the country in the betterment of the people.

Touching on the Bukit Jalil City project, he believed the Pavilion Bukit Jalil Regional Shopping Mall, Park Point Retail and the Signature Retail offices would create more business and job opportunities.

The Bukit Jalil City project to be developed in collaboration with Malton Berhad and Retail Planner of Pavilion Bukit Jalil is estimated to be completed in 2019.

"This Bukit Jalil City will transform the classic high-rise residential area into shopping hub and provide thousands of new employment opportunities," Tengku Adnan said.
