

Covid-19 (May 10): 3,807 new cases, death toll hits 1,700

Malaysiakini

10 May 2021

COVID-19 | The Health Ministry today reported 3,807 new Covid-19 cases in the country.

The number of active cases is still going on a 33-day uptrend.

A new record for ICU cases* and patients which need ventilators were also set today.

- Active cases: 37,396
- Patients in ICU: 434*
- Intubated: 224

States

There were 1,480 new cases reported in the Klang Valley, followed by Sarawak (649) and Kelantan (329).

Kedah (224) appears to be moving towards a clear upward trend.

Throughout the country, almost one in four new cases were detected among those who are not linked to clusters or are close contacts of Covid-19 patients.

As of yesterday, the R-naught for the entire country was 1.11. The only regions where the R-naught was below 1.00 are Kelantan, Sarawak and Sabah.

An R-naught of more than 1.00 suggests that the rate of spread of Covid-19 was accelerating.

Deaths

Another 17 persons was reported to have died of Covid-19. The national death toll is now 1,700.

These deaths were reported in Selangor (4), Penang (3), Malacca (3), Kuala Lumpur (2), Sarawak (2), Sabah (1), Kedah (1) and Kelantan (1).

The youngest victim was 48. Three of the victims did not appear to have any known comorbidity.

Details of the victims are documented in Malaysiakini's Covid-19 tracker site.
