Bernamea

COVID-19 | The Health Ministry reported a record 11,618 new Covid-19 cases today, primarily driven by Selangor, Kuala Lumpur and Negeri Sembilan.

The number of patients requiring intensive care dropped by a dramatic 9.6 percent compared to yesterday.

However, the number of active cases - Covid-19 positive patients who are either quarantining at home or are receiving treatment elsewhere - breached the 100,000 mark for the first time.

- Active cases: 101,359
- Patients in ICU: 878
- Ventilated: 432

Breakdown by states

- Selangor (5,051)
- Kuala Lumpur (1,749)
- Negeri Sembilan (1,537)
- Malacca (526)
- Kedah (504)
- Pahang (400)
- Johor (396)
- Sarawak (289)
- Sabah (286)
- Kelantan (236)
- Penang (210)
- Terengganu (189)
- Perak (164)
- Putrajaya (40)
- Labuan (38)
- Perlis (3)

Selangor once again recorded over 5,000 cases, with 5,051 being its second-highest tally ever following yesterday's total of 5,263.

Kuala Lumpur set a record high of 1,749 new cases. Its previous record was 1,550 on July 6.

Negeri Sembilan's figure of 1,537 is also a new record.

Notably, new cases in Pahang (400) have been trending up and do not appear to meet the government's criteria to be in Phase 2 of the National Recovery Plan.

As of yesterday, the R-naught figure for the country reached 1.61. The figure has been rising steadily after a low of 0.90 seen on June 12.

An R-naught figure of more than 1.00 suggests that the spread of Covid-19 is accelerating.

The only parts of the country with an R-naught of less than 1.00 are Sarawak, Labuan and Perlis.

Deaths

Another 118 people were reported to have died due to Covid-19 today, bringing the death toll to 6,503.
