

Covid-19 (Sep 3): 19,378 new cases, 330 deaths

Malaysiakini

02 September 2021

Bernama

COVID-19 | The Health Ministry today reported 19,378 new Covid-19 cases.

The Klang Valley continues to report less new cases than Sabah and Sarawak for a third day in a row, possibly signalling a shift in the Covid-19 epicentre.

The R-naught for Malaysia is continuing on a month-long downward trend and was 0.97 last night. A R-naught of less than 1.00 suggests that the spread of Covid-19 was slowing down.

The regions of Selangor, Malacca, Kuala Lumpur, Labuan, Putrajaya and Negeri Sembilan all recorded a R-naught of less than 1.00.

Kuala Lumpur and Negeri Sembilan have the lowest R-naught. Both regions have above average vaccination rates and hospitalisation is steadily reducing. [See hospitalisation chart below]

The anomalous region is Sarawak which has an above average full vaccination rate of 63.3 percent but its hospitalisation rate and new daily cases has been trending up since mid-August.

Active cases are continuing on a seven-day downwards trend since peaking on Aug 28 while the number of confirm Covid-19 patients requiring intensive care have dipped below the 1,000 mark again after seven days.

- Active cases: 259,189
- Patients in ICU*: 975
- Intubated*: 463

New cases by states

Selangor (3,613)

Sarawak (2,464)

Sabah (2,404)

Johor (2,331)

Penang (1,726)

Kedah (1,470)

Perak (1,389)

Kelantan (1,356)

Kuala Lumpur (740)

Pahang (559)

Terengganu (532)

Malacca (399)

Negeri Sembilan (270)

Perlis (80)

Putrajaya (41)

Labuan (4)

Deaths

The Health Ministry reported another 330 new deaths attributed to Covid-19, bringing national death toll to 17,521.

There were 93 victims who were pronounced dead upon arrival at the hospital.
